

PARK HILL / SHEFFIELD

Park Hill is like no other. Rooted in 50's utopia, grounded by Sheffield steel. 50 years ago the building heralded a brave new world expectant of change, 50 years on, it's about to do it all again... but this time it's different. Inspired by Le Corbusiers seminal Unite D'Habitation in Marseilles, it's Corb with less sun and more soul.
